Product Description

Mia London, card game, for 2-4 players, from 5 years on

The world famous detective Mia London needs your help! She has to solve a difficult case - a nasty crook has committed a terrible crime. You must find and arrest the scoundrel among 625 suspects. Look closely at the clues and reconstruct the portrait of the common crook.

In the children's game Mia London by Scorpion Masqué you have to help the young detective Mia to catch the villain. Four characteristics have to be found out: What hat, glasses, mustache and bow tie is the villain wearing?

For each characteristic there are ten cards, two of which always show the same clue. For example, there are two hat cards with a flower, two with a feather, and so on. One card is secretly removed from each feature at the beginning of the game. One player reveals from the piles of cards one by one and puts them face up. For the first pile, he places four cards next to each other and then lays the cards on top of the cards already laid.

The players must try to remember which feature occurs only once and then secretly note their choice in their investigation booklet. This is the same for each clue, except that it becomes increasingly difficult to look at the cards closely.

When all four clues have been uncovered and everyone has made a choice, the children compare their results. Whoever has correctly identified most of the clues has helped Mia to catch the crook and wins the game
