Product Description

Voll verladen, Card Game, for 2-4 Players, from 7 Years

The warehouse is very busy. Forwarding agents load pallets onto their trucks in ascending order. Since the loads are completely scattered around the warehouse, each item must be checked individually before loading. But anyone who loses control and starts off with only half a full load will probably have himself fully loaded!

Who keeps the overview and thus scores the most points? Voll Verladen is a game in which the range of numbers from 1 - 18 is trained in a playful way. The players pick out a number of number cards from hidden cards and place them on their truck in ascending order. Since there are additional points for certain number sequences and cards with advertising imprints, the players try to load more valuable goods in this way. The first player to create 10 cards ends the game.

This game is ideal for kindergarten, school and therapy.

Attention! Not suitable for children under 36 months. Legal age: 7
