Product Description

LYNGK, board game

LYNGK is the synthesis of the first six games of the GIPF project and the perfect epilogue of the series. LYNGK is played with 48 pieces in 6 different colours. At the beginning, all colours are neutral and do not belong to any player. In the course of the game, both players must choose 2 colours each. The aim is to form stacks of 5 pieces of different colours, the top piece of which shows one of the two own colours. The player who tactics cleverly, plans with foresight and uses the possibility of multiple moves over stones of his own colour skilfully wins in the end with the most stacks of 5.
