Product Description

MLP Tails of Equestria - Spuk in Equestria, paperback (DE), 64 pages

The helmet of the shadows was created from Nightmare Moon's enormous dark forces. Now a new master is looking for him

In her youth, Princess Celestia once traveled to many different worlds with her mentor Starswirl. They used magical mirror portals to do this, but the portals were locked when the travelers found out how dangerous it could be there. Now Ponyville is once again celebrating the nightmare night, and even if everyone is in a good mood, the fear of a single little pony threatens to reopen one of the portals - and unleash an unknown darkness on Equestria!

Perfect for ponies from levels 5-10. This book is an expansion for Tails of Equestria - The Rulebook.

Warning! Not suitable for children under 36 months.
