Product Description

Insert - For Concordia and Expansions: Venus and Salsa

This insert is compatible with Concordia and the expansions Venus and Salsa. There is enough space for all cards to be sleeved. The insert works in either the base game box or in the new Concordia Venus base game box.

The design provides both efficient storage and improved game play. All of the trays can be utilised during the game. They greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays.

As mentioned above all the trays can be used during the game to organise the components and make access by all players easy.

The board and rules act as a lid on top of the insert trays. Once fully loaded the box can be stored vertically and the lid closes flush. First place the player boards on top of the player piece trays. Next goes the board. Note that in the base game box there is room for only one board, the other boards form your collection should be stored in one of the expansion boxes. On top of the board go the Venus and forum boards, followed by the rules.

If the box is taller than the original game there is room here for three boards instead of one. The other components and rules go on top, again filling the box to allow vertical storage. Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 28.2 x 39.2 x 5.2 cm and also fits the new Concordia Venus base game with box size 28.2 x 39.2 x 7.6 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
