Product Description

MicroMacro: Crime City, card game (DE), for 1-4 players, ages 8+

Welcome to Crime City, a city where the Crime lurks. Fateful secrets, devious robberies and cold-blooded murders are the order of the day here. The local police are no longer able to control what is happening. Therefore, the work of clever investigators is required.

MicroMacro - Crime City is a cooperative detective game. Together, the players solve 16 tricky criminal cases by determining motives, finding evidence and convicting the perpetrators. An attentive eye is just as important as a creative ability to combine things in order to unravel everything on the 75 x 110 cm game board. A magnifying glass is included in the game as a little help.

One player takes on the role of the commissioner and is responsible for reading out the case cards (but of course also puzzles). The players choose together which case they play and the commissioner reads out the corresponding starting card and the first task. Together, the players explore the map of Crime City in order to gradually answer all the questions on the case cards. The game ends as soon as the last case card has been answered correctly.
