from **23,67 EUR**

Item no.: 336942  
shipping weight: 0.90 kg  
Manufacturer: Folded Space

### Product Description

Insert - For Mansions of Madness 2nd Edition and Expansion: Beyond the Threshold, Streets of Arkham, Sanctum of Twilight, Horrific Journeys

The insert is compatible with Mansions of Madness 2nd Edition and its expansions Beyond the Threshold, Streets of Arkham, Sanctum of Twilight and Horrific Journeys. All game materials can be stored inside the main game box.

The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game and they greatly aid set-up and clear-away times.

The insert is arranged in three layers with the room tiles stacked in the top right corner.

There is a vertical small card tray for the common item, unique item, spell, and condition decks. There is a separate tray for the damage and horror cards. All the card trays provide for sleeved cards. The other trays are for the person tokens, dice, search/interact, explore/sight, and other tokens from the expansions.

Miniatures are stored separately from their bases, and grouped by type. The large and medium monster trays have no base and are meant to be left in the game box. There are then trays for the investigators and the small monsters.

The small and medium monster bases are stored in the large tray, which also has a slot for the medium and large monster tokens. The other tray here is for the investigator cards and the room doors and barricade tokens. This last tray also has slots for the ID tokens and the pink clue tokens from Beyond the Threshold.

There are trays for the clue and monster base tokens for small monsters and two trays for the fire/darkness, barricades and secret passages tokens, and for the drift/water tokens.

As mentioned above, the trays can be used during the game to organise the components and make access by all players easy.

The larger room tile and rules are placed on top of the insert trays acting as a lid. The game can be stored vertically, and transported easily as it fully fills the game box.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 29.6 x 29.6 x 13.4 cm.

This product consists of a flat-pack of 8x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 900 g
- Packaging dimensions: 25.5 x 35.5 x 5 cm
- Material: Evacore sheets
