## FS-GLO - Insert - For Gloomhaven

from **29,41 EUR**

Item no.: 336915  
shipping weight: 1.10 kg  
Manufacturer: Folded Space

### Product Description

#### Insert - For Gloomhaven

The insert is compatible with Gloomhaven. The design provides both efficient storage and improved game play. All of the trays can be utilised during the game. They greatly aid set-up and clear-away times. There is space for all cards to be sleeved.

The two monster stat sheet and card trays are designed so that the sheets act as dividers with the monster cards in between. This allows quick access to each monster in game and its relevant cards. These trays also contain the largest monster standees.

Gloomhaven is a big box game with many complex components. The order of placing the insert trays in the box is important to maintain a tight fit for protecting components and to allow vertical storage. The smaller room tiles stand vertically on the right next to the character boxes. You can add the rule books on top of the trays. Followed by the board and finally the large room tiles and other game boards.

Attention! Not suitable for children under 36 months.

**Note:** It is designed for games with external box dimensions of 30 x 41.1 x 19.1 cm.

This product consists of a flat-pack of 10x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!
