FS-LCG2 - Insert - For Living Card Games (LCG)

11,24 EUR

Item no.: 336919
shipping weight: 0.50 kg
Manufacturer: Folded Space

Product Description

Insert - For Living Card Games (LCG)

The insert is compatible with various Living Card Games (LCG) such as Arkham Horror: LCG, Game of Thrones - The Card Game, Legend of the Five Rings (L5R): LCG, Lord of the Rings: LCG (2nd Edition), Android Netrunner: The Card Game (revised) and Blood Bowl: Teammanager.

The insert is designed to fit snugly inside the box and is 2.5 cm higher than the box base to allow for maximum storage of cards. There is space for all cards to be sleeved with quality sleeves.

There are five card-sized slots on each side, two of which are larger to accommodate the token tray below. Then down the middle are two card-sized slots for additional cards, one of which is slightly longer to allow space for the folded rules sheets from the small expansions. With maximum card storage, i.e. the token trays removed, the insert can store 900 sleeved cards maximum, when no token trays are used.

The insert comes with eight token trays, four wide and four narrow. They can be combined in different ways for different games to either maximise card storage or token types or a balance between the two extremes. They are removable and usable during game play to keep the table tidy and speed up setup and clear-away times.

With the rules on top of the insert and the lid placed on top the lid rises 2.5 cm higher than the base. This still allows plenty of friction and hold to maintain its position and the game can be safely stored vertically.

This insert can be assembled in a number of different ways, depending upon the game you will use it for and the ratio of cards to tokens you need to store.

The insert has dividers which can be added between card tray walls to split them in two, giving space for sleeved small cards.

Attention! Not suitable for children under 36 months.

Note: It is designed for games with external box dimensions of 25.4 x 35.4 x 5.1 cm.

This product consists of a flat-pack of 4x Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.

Attention: The game must be purchased additionally. The content of the trays on the pictures is not included!

- Gross weight: 500 g
- Packaging dimensions: 25.5 x 35.5 x 2.2 cm
- Material: Evacore sheets
