Product Description

DSA - Aventurian Magic 3, paperback (DE), 240 pages

Aventurian Magic 3 is an extension of the rules for DSA5, which is dedicated to the Aventurian varieties of magic. Each magical tradition described is presented in detail, along with its rituals, spells and peculiarities.

You will learn more about the magic styles taught at the magician academies, the rituals of the Norbard zibilja, the powers of the animists and the magic of the dwarf druids, the geodes.

In this book we introduce you to the rules for incantations, spherical travel and time magic, for the schools of thought of animists, druids and geodes, and for teaching guild magicians.

It awaits you In addition, an extensive collection of magic formulas of the included traditions, as well as special magic skills to give spells additional power or to change their mode of action.

We also introduce you to magic variants of the included spells that a magician can master first. if he has gained enough experience with the basic version of the spell.

In addition to focus rules, new professions await you. From the mysterious druids with their elemental and domination magic, to the dwarf geodes and their ancient sorcery, to the animists of tribal cultures who use their magical powers to improve their physical abilities, more than two dozen professions await you. To start your adventure right away, you can also choose one of the eight ready-to-play archetypes.
