Product Description

DSA5 Playing Card Set - Treasures & amp; Treasures 4 (DE), 55 cards

The barbaric enemies are defeated and their pockets are looted. The burglar discovers a secret hiding place on his foray into the house of a Festum magnate, or the thief relieves a Thorwal pirate of his money cat in the pub. On every game evening, your group of heroes can get hold of treasures unplanned. This treasure map set enables you to face such situations spontaneously and without worrying. Of course, you can also use it when preparing an adventure for fixed treasures to make your work easier.

On 53 maps there are large and small treasures especially for the north of Aventuria: from the frozen shores of the Brecheisbucht over the green steppe to the stormy cliffs of Thorwals.

Warning!Not suitable for children under 36 months.

The rules will be applied required!
