Product Description

Foam Tray Set for Zombicide: Invader, Board Game Box

Actually, it should be an unspectacular mission on PK-L7. Just a few engineers to protect. Mining a little xenium. Nobody could have guessed that an unmanageable horde of Xenos would suddenly break over them. Supported by a Peacekeeper Bot and a Falchion Sentry Gun, you now fight together with your team against the horrible superiority.

To prevent your game box from becoming an unmanageable battlefield with countless injured people, we have created this Feldherr foam set for your game box.

- The set fits exactly into the original board game box of the "Zombicide: Invader" core game by CMON.
- Provides space for all 6 Survivor, 64 Xeno and the two Machine miniatures, plus the complete core box accessories.
- The lid of the board game box protrudes approx. 6 cm.

On top of this come the two foam inserts in which you neatly stow the miniatures and the small cards.

From Vivian to the Tanks to the Spoiler Abomination, each figure is assigned a custom-fit compartment. Thus the detailed miniatures remain safely in place even when the box is transported.

The soft foam ensures that sensitive parts, such as the weapons of your heroes or tentacles of the zombies, are well protected from damage. If you paint your figures, you can also be sure that the paint will not be scratched or abraded.

On the second insert you have two card compartments next to the miniatures in which the 125 Mini and Xeno cards are placed. The pockets are provided with finger-wide recesses, which makes it easier for you to remove the stacks. All cards also fit with sleeve.

Finally you put the supplied foam topper on the uppermost tray. All miniatures are securely packed in foam, the game material is neatly stowed away and you are well prepared for the next mission on PK-L7.

Attention! Not suitable for children under 36 months.

The value set contains:

- 1x foam tray for miniatures
- 1x foam tray for miniatures and cards
