## 🗎 Product Description

Organizer for Gaia Project, Board Game Box

You want to lead Terrans, Ivits or another race to a higher state of development? In that case you should lead by example and prove how highly developed your skills to organize the "Gaia Project" game material are.

Our Organizer fits exactly into the original board game box. It consists of a foam tray with 19 + 1 compartments and a custom cut, individually removable insert with 10 compartments. For the insert, there is a tailor-made extra-compartment in the tray.

7 compartments of the tray are reserved for the structures and markers of the respective colors. 4 compartments provide space for (sleeved) cards and further markers like power tokens and knowledge markers. The other 8 compartments will hold additional game material like e. g. round scoring tiles.

The extra-compartment for the removable insert has the same base area as the space sector tiles and features 10 compartments. The 10 compartments provide space for federation tokens, action tokens and record tokens.

When you're done sorting everything into the Organizer, you place the space sector tiles on top of the insert. The sector tiles will then be level with the foam tray.

For additional protection of the game material, we provide a matching foam topper which makes sure that nothing can fall out.

Finally, you place the larger game components like research board, scoring board and faction boards on top, close the lid and you're all set.

The Organizer extends ca. 2 cm over the edge of the original board game box.

Attention! Not suitable for children under 36 months.

The value set contains:

- 1x foam tray with 19 + 1 compartments
- 1x foam insert with 10 compartments
- 1x matching foam topper
- All figures and products shown in photos are for size comparison only. They are not included in the delivery.

Dimensions of the trays:

- The foam tray has the dimensions: 350 mm x 285 mm x 50 mm total height (40 mm usable height + 10 mm foam base)
- The foam insert has the dimensions: 177 mm x 164 mm x 20 mm total height (10 mm usable height + 10 mm foam base)

Features:

- fine pored foam - Made in Germany
- ready to use: no assembling necessary
- chlorine free and acid free
