### Product Description

#### MAXI - Bag for Bolt Action, 117 Soldiers + 6 Tanks

Have you got your troops ready? Are you sure your material is in the best possible condition? Organisation is everything when you want to win a war!

Our MAXI bag with matching foam trays enables you to sort your units properly so that you may come out victorious from your next battle.

The compartments of the two foam trays with 36 compartments each are same-sized. Each of the altogether 72 compartments is 50 mm long x 25 mm wide x 25 mm deep. Held by fine-pored quality foam, your soldiers are as safe as it gets here – delicate parts like e. g. guns will remain intact, paint will remain unharmed.

The compartments of the tray with 45 compartments have a conic shape. This ensures efficient use of available space, allowing you to store a many small soldiers.

The two specifications for the width refer to the short and long sides of the compartments, respectively.

The 60 mm high foam tray for the 6 tanks is perforated with a raster. It allows you to individually remove segments with a 14 mm \* 14 mm base area. You are thus enabled to configure the compartments of the trays according to sizes of your specific types of tanks.

As soon as you are finished configuring the compartments, just pull the foil from the tray and adhere the foam base to it. Your tanks are now safe from falling out.

Of course, the trays fit exactly into the sturdy MAXI bag. The bag is made of particularly hard-wearing fabric. Padded side panels and a reinforced base additionally ensure that the contents are optimally protected. Next to the large main compartment, the bag has a smaller pocket with a zipper at the front. Game sheets, books and writing material can be stored here.

Finally, the Set includes a matching foam topper. Just place it on the uppermost tray to ensure that no models can fall out.

Attention! Not suitable for children under 36 months.
