Product Description

Antique Box - 185 Components

When it comes to lifting treasures, one item certainly can't be missing. The treasure chest, which appears in every pirate movie, is the epitome of this glorious buccaneer era. The discovery of a new world, new trade routes and last but not least the treasures hidden behind the horizon were the incentive of many movies, books and sagas. Everyone owns a treasure and the UGEARS(R) kit Antique Box, is the right container to store them in style.

In fact, the Antik Box, consisting of 185 individual parts, is suitable as a make-up or jewelry box and convinces with its unique style. This is based on the mechanics of retrofuturistic works, which carry a touch of artwork. The UGEARS(R) kit Antik Box is thus oriented to steampunk models, whose core reflects a nostalgic romance of technology. Thus, the chest equipped with multiple compartments and mirrored mechanisms follows the urban or industrial style, which is widely used in today's studio apartments. This chest is thus much more than pure tinkering joy, but a piece of nostalgia, which will delight any observer.
