Item no.: 341065
shipping weight: 0.20 kg
Manufacturer: Gamegenic

Product Description

Playmat Tube, clear

Playmat Tube provides a safe storage solution for sewn and non-sewn playmats in bright, semi-transparent color. A hexagonal shape prevents the tube from rolling around on the table. The lid, made of flexible material, is easy to remove and still closes tightly, so the playmat can't accidentally fall out even when shaken.

The Playmat Tube is made of shock and scratch resistant PETG and has a reinforced bottom to withstand heavy pressure.

Attention! Not suitable for children under 36 months.
