Product Description

In the Hall of the Bergkönig - Deluxe, board game (DE), for 1-5 players, ages 12+

In the Hall of the Bergkönig, players try to be trolls to rebuild their forsaken kingdom under the mountain. With muscle power and magic they unearth riches, dig collapsed tunnels and build large halls. At the same time, they lift the overturned statues of their ancestors back to their places of honor in the heart of the mountain.

The flow of play in In the Hall of the Mountain King is driven by innovative production cascades. Timing, tactics and magic help the player to make the halls inside the mountain shine in new splendor and are the key to success and the crown. The game is played with 1-5 players: everyone against everyone or in the team variant. Depending on the number, the game is played on the autumn or winter side of the board.

Each player starts at his own entrance and digs a tunnel network from there, which must not be connected to the tunnel systems of the opponents. The more valuable the minerals spent on the tunnel tiles are on the board, the more honor they bring to the respective troll clan.

The players have to expand their tunnel network, discover workshops, build large halls and use useful resources on the Find your way to the heart of the mountain. Stones, irons, heart stones, carts, hammers, coins and runes can be put into the players' supply. All of these are important resources for the rebuilding of the kingdom.

Buried statues have to be salvaged and placed again with the help of the carts in suitable places in the heart of the mountain (earning points). An important aspect of the game is the production cascade. Each player starts with four trolls. Each troll has a certain combination of resources. When a new troll is hired, it is placed on top of two other trolls to form a pyramid. The new troll is activated and receives its resources. Plus, all of the trolls under him will also be activated and given all the resources they can carry. The more trolls activated this way, the more resources will be generated. The timing of the activation of new trolls is extremely important in. Each player must try to maximize the resources available by activating trolls. At the same time, it is important to keep an eye on the game board and constantly expand your tunnel system before the other players grab the best seats and materials.

The end of the game is initiated when the second player hires his sixth troll. Has. The player who has earned the most victory points with his tunnel system will be crowned the new king of the mountains and the winner of the game!
