Product Description

CuBirds - card game (DE), for 2-5 players, ages 8+

The CuBirds are looking for their way to their home nest!

Numerous birds sit on the fences in the country day in and day out. But when it's time to fly away, they flutter wildly and can't find their flock anymore. You should help them with it! Place birds from your hand on one of the four rows. If you manage to surround other bird species from left and right with the added bird species, you take the enclosed cards in your hand. This is how you get new birds again. Plan your moves well! Your goal is to have as many birds of the same species as possible on hand to form flocks. How big such a flock has to be is indicated by the different bird species. As a reward, one or two birds of the respective species will be waving for your collection. Only who manages to collect 1 bird of each of the eight different species or at least 3 birds of 2 different species in front of you, wins the game! CuBirds surprises with a depth of play that one would not expect at first glance. The explanation of the game takes just under 5 minutes and one game is played so quickly that you want to add the next one straight away! There are different ways to get the win - so no two rounds are the same. CuBirds is an all-round talent: Both people who play frequently and people who play less often will have great fun with CuBirds!
