Product Description

Cup Of Therapy - puzzle game (DE), 500 pieces

Cup Of Therapy is a new concept that was created in May 2017. The psychotherapy professionals Antti Ervasti and Elina Rehmonen designed this world together with the award-winning and internationally recognized illustrator and graphic designer Matti Pikkujämsä presented gentle way. The illustrations convey encouragement, comfort, and humor. With the help of the products, they want to bring difficult and sensitive topics and situations to the fore. Each Cup Of Therapy drawing is carefully thought out. They offer people an exciting opportunity to deal with these universal, sometimes even challenging topics.

With this puzzle, Cup of Therapy serves a cup full of empathy, understanding and encouragement. The heartwarming illustrations feel like a big bear hug, showing how important it is to feel and that you are just right for who you are.

Warning! Don't suitable for children under 36 months.

- Format: 38 x 165 x 114 mm
