Product Description

DSA - Aventurian Gods Work 2, paperback, 240 pages (DE edition)

Aventurian Gods II is a rule expansion volume for DSA5, which is dedicated to the Aventurian consecrated. Consecrated to the Marbo, the Levthan des Angrosch, but also the shamans of human tribal cultures are examined in more detail.

Also includes numerous focus rules for talismans and other ceremonial objects.

In addition to these focus rules, you can expect a large selection of new liturgies and ceremonies from all the churches presented. In addition, all liturgies, including those of the rulebook, are supplemented by extensions that make them more flexible and equip experienced consecrated people with additional, exciting skills.

In addition to the supplementary focus rules, Aventurian Gods Work II also contains new consecrated professions. You can expect professional packages for all shamans of human tribal cultures, a selection of demigod devotees and a handful of clerical orders, for example some Hadjinim orders, Rur and Gror wandering priests and the Noionites. To start your adventure straight away, you can also choose one of the eight ready-to-play archetypes.

Warning! Not suitable for children under 36 months.
