Product Description

Savannah Park, board game, for 1-4 players, ages 8+ (DE edition)

In the middle of the heart of Africa there is an incomparably beautiful natural paradise. Not only do the largest land animals in Africa live in these endless expanses, but visitors are also presented with an outstanding landscape. On this wonderful piece of earth, players compete for who knows how to optimize their own park most successfully.

To do this, they must help the animals to gather with their own kind in the largest possible herds by repositioning them. Access to the water points is also essential in order to multiply the value of the herds. In addition, the players must make sure that bush fires do not become dangerous to the animals. The shady trees and lush grass are also helpful. The more a park has of it at the end of the game, the better. As soon as all animals have found a new place, the game ends with a final scoring. The winner is whoever was able to collect the most points.

Savannah Park is an interactive puzzle with beautiful artwork by Annika Heller.
