### Product Description

Prime Double Sleeving package transparent / black (2x100 sleeves)

Wrapping cards is the standard for protecting your cards. To increase this protection, most players use a smaller sleeve before the card is put into the regular sleeve (sleeve-in-sleeve). This is used to protect particularly valuable cards. This double-sleeving package offers you exactly this possibility in one product. The package contains 100 inner sleeves and 100 standard sleeves and therefore fit together perfectly. Both covers have a high level of transparency in order to get an unadulterated view of the map. The back of the standard sleeves is 100% opaque and also offers you a great feel when mixing.

Warning! Not suitable for children under 36 months. Danger of suffocation due to small parts that can be swallowed.

- Case size: 66 x 91 mm
- Inner Sleeves: up to 64 x 89 mm
- Great feel during the mixing process
