Product Description

Dungeon S550 + midnight gray

Designed for up to 550 cards in double sleeves. Perfect for small cube drafts. In addition, the cover is completely removable, which allows easy access to all components. The lid can be clipped onto the underside and thus saves valuable space on the gaming table. The special locking mechanism with strong magnets ensures a precise and secure closure, even if the box is turned upside down. You have almost endless possibilities to fill the Dungeon S550 +: deck boxes, playmats, accessories and sleeved cards (even in top loaders). Attention! Not suitable for children under 36 months.
