Product Description

Rettet die Eisbären - Board game, for 1-4 players, from 10 Years (DE Edition)

"Save the Polar Bears" is a cooperative strategy game from Jog Kung and Huang Yi Ming. 1-4 family and connoisseur players, ages 10 and up, form a scientific organization that aims to save polar bears. Because their livelihood is endangered by climate change and the melting of the polar ice caps.

You drive your rescue ships through a polar landscape and collect data in the process. At the same time, you have to bring polar bears to safety, because the ice floes they are on are gradually melting away and do not offer enough space for everyone. If the polar bears have no ice floe near them, things have to be done quickly. Then you can only get them out of the water with the rescue helicopter!
