Product Description

Momo Metallic Acrylic Paint 20ml Bottle

Just a peach colour - a warm pink-orange but without the fluff. It works well either layered over another colour or on its own over a white primer.

Turbo Dork paints are a mixture of pigments suspended in an acrylic medium and additives that make them fast drying, water soluble when wet and waterproof when dry. The metallics contain pigments and small mica flakes that create a glitter effect on the paint surface and make it look like metal.

They are suitable for use with the airbrush, but can also be applied by hand.

Caution. Not suitable for children under 36 months.

- Size: 20 ml
- Colour: Momo Metallic
