### Product Description

#### Warpaints Kings of War Ogres

The ogres of Mantica are a hardy breed, hailing from the harsh climate of the Mammoth Steppes to the north. This realm of barren grasslands and icy plateaus is anything but inviting, and a hard life awaits any human bold enough to settle there. Despite their rough-and-tumble appearance, ogres are not just monsters. They are cunning fighters and shrewd negotiators who ply their trade as mercenaries all over the world. The Ogre Paint Set has been designed with a colour palette that allows you to paint any type of ogre army, including their fur-and-bone armour and crude weapons.

Attention! For home use only. Use under direct adult supervision. Not suitable for children under 12.
