Product Description

DSA5: Aventurian Pandemonium 2 - Paperback, plastic cover, 160 pages.

The art of invoking demons is one of the most powerful skills of an Aventurian wizard, but also one of the most dangerous. Just one wrong word, one inattention or a blurred spell circle can lead to the death of the summoner - or worse.

The Aventurian Pandemonium II introduces you to about sixty demons from the Nether Hells and their archdemonic rulers, who can serve as antagonists to the heroes.

The sourcebook describes many independent demons from the 7th sphere, for example the seductive Hanaestil, the terrifying Azamir and the madness-bringing Isyahadin. In addition to already familiar demons, the second part of Pandemonium introduces a number of new creatures, such as the insect-like Zyrra'Shin, the unstoppable transport demon Suulonar and the enigmatic Grat'Malokath, who appears preferentially during failed summons.

All creatures are described in detail, come with a full value box and are illustrated in colour. In addition to the description of the demons, the Aventurian Pandemonium II contains focus rules for binding demons, additional information on their names and topics related to the Nether Hells, such as demon rot and lycanthropy.
