Product Description

3000 Halunken, board game, 2-4 players, years 12+ (DE edition)

The Traveller has brought nothing but chaos and strife to our tranquil Western town. When he suddenly disappeared, we wanted to find his relics - but we weren't the only ones looking for them.

In the family game 3000 Halunken, each of you leads a gang of scoundrels collecting the left-behind technology of a mysterious traveller. Soon the government officials will be here, so grab what you can.

To win the game, you will need to hire scoundrels and use their unique abilities. Each scoundrel is made up of three parts: a transparent job card, a trait card and a card sleeve. There are 3000 different possible combinations for the scoundrels! This makes every game unique.

The Traveller's valuable technological gadgets are rumoured to be safely stored in safes, which are said to be found in the depot, in the Traveller's mansion and in his secret laboratory. Each safe a player steals is worth tech points at the end of the game. Whoever has collected the most tech points at the end of the game wins and decides the fate of the Wild West!

Caution! Not suitable for children under 36 months!

- Players: 2-4 players
- Age: 12 years
- Game duration: from 60 minutes
