What does "Classic" mean? Classic is never outdated, never embarrassing and is a proof of a sense of style. It fits everything and is useful in every situation. It fits everyone, not only the rich and the snobs. The classic can be simple or sophisticated but it is never vulgarly ornate. The golden rule of moderation is what distinguishes it from all other things. So, how does the Q WORKSHOP understand the Classic Runic RPG dice? It is a Set of Polyhedral Dice made from best materials according to a classically elegant design and crafted with simple but beautiful runic font, readable as never before. These are no trinkets. It is a very useful set for all games. Available in many colors, these dice should help your heroes explore dungeons, fight with dragons, and let them find the right adventurous path in all worlds. These sets will be your friends. Take them with you wherever you play your favourite games. We are proud of our Classic Runic Dice Sets because the simplicity of these game-tools has been combined with aesthetics. No one has the right to say that Classic means boring and ordinary. We create beautiful dice, Classic is not a deviation from this principle.

Colors play a very important role in our lives, whether we realize it or not. They have the ability to affect our emotions and moods in a way that few other things can. When you create your character, you should ask yourself what color suits your hero? What will be the best way to show his or her personality and tell something about it to other players? Maybe it is also worth choosing a special color for them. This non-verbal signal can be a great help to create a more immersive atmosphere during the game. Should a warrior mage roll red and peaceful mystic green or maybe purple because he is noble? Show your colors with our Classic Runic Dice Sets. For example:

Classic Runic Glacier & white Dice Set – This is the first runic ice set, cut out from the surface of the glacier that covers ancient battlefield near our factory. The massive ice is hidden deep underground with snow from times of legends. This ice is so petrified that it will never melt and always will be helping you in your adventures. If you don't believe in this story, it's no problem, because real glacier can wait for aeons for the right person, and these dice are waiting for a faithful user.
