Product Description

Halloween Pumpkin - Jack O'Lantern Cube Set (7 pieces)

Don't be afraid of the dark. These widely known dice finally had to be honoured with the ability to glow in the dark. The 7 polyhedra, black on the background and orange on the engravings, light up yellowish when shone with UV light! With the pumpkin head on the top, it's perfect for grotesque adventures on Halloween!

Halloween! One of the happiest and scariest holidays at the same time. A great opportunity for dress-up events that are enjoyed by children and adults alike. For years it has also been an opportunity to hold special role-playing sessions in a climate of not-so-serious fright, and for those who don't play regularly - to tell spooky and funny stories by the fire.

It is well known that the most haunting sessions tend to be low light, preferably candles ... or even in the dark, which heightens the senses and gives the story a very different tone. Anyone who has experienced this knows that there is nothing more amazing.

Now imagine that your cubes are engraved with bats, ghosts, spooky mist and a familiar pumpkin head with hollow eyes and a sinister smile... that adds a very special atmosphere, doesn't it? Kind of creepy, but with a lighter touch. We created polyhedrons like these during the Top Drawer Kickstarter campaign and they've been popular with gamemasters, players and collectors alike ever since.

Now we've added a whole new dimension to our Halloween cubes - thanks to a special glow-in-the-dark paint! Charge them up with UV light, amaze your fellow players at the table and create a grotesque atmosphere full of fun and creepiness!

Caution! Not suitable for children under 36 months.

- Material: plastic
- Number of dice: 7
- Cube colour: Black
- Colour of painting: Orange glows in the dark
