### Product Description

#### D12 White & Black Hit Location Die (1)

Q WORKSHOP presents the latest D12 White & black Hit Location cube. Shatter or cripple your opponent with one precise throw!

Size: approx. 30mm

A vivid description of the action is extremely important in role-playing games. In fights, only direct hits count and it would be nice to know where you hit and how hard. Otherwise it's no fun. Q WORKSHOP has found a solution for all roleplaying systems that do not specify hit points in their rules. We present the latest D12 hit location dice. Smash or cripple your opponent with one precise throw! Enjoy your hero not only reaching places under the knees of opponents bigger than him. Take this huge cube made of high quality plastic, designed to be rolled with dramatic emphasis and thrown onto the table. Then you can tell epic stories about how perfectly your hero attacked the weak point of the enemy's armour. No helmet, so no more head! We decided not to write any text on the dice faces. Even the ancient Egyptians, who could only read hieroglyphics, would understand the beautifully carved silhouettes on the D12 hit square dice. We chose elegant, permanent images over text because we want to make our best-selling product as universal as possible.

#### D12 White & Black Hit Location Cubes (1)

Silent Death almost always has bright colours. White contrasts ideally with blood. White carvings on the D12 White & black Hit Location die are very legible. This is a fighting die, something for professionals: simple and elegant.

Dear game master, you also get a fate tool for locating mutations. Give your players the illusion of blind fate when a storm of arrows hits the heroes in battle in the most unexpected places on their bodies. We've designed a great cube, and we're not just talking about size. We hope you'll make great throws and many direct hits!

List of hit points: 1. head, 2. neck, 3. torso, 4. right arm, 5. left arm, 6. right hand, 7. left hand, 8. lower abdomen, 9. right leg, 10. left leg, 11. right foot, 12. left foot;

Caution! Not suitable for children under 36 months.
