Product Description

Kanzleramt combines the classic board game with current political events and the K-question.

Entertaining and surprising. Ideal for game nights with friends and family.

Nowhere are the opposites of good and evil more obvious than in politics. And in this board game.

Honest, committed and capable rulers face lying, cheating and scheming fellow citizens. In the struggle for power in the role of chancellor, some people will use any means. As a member of politics, you have to assert yourself in this - often unfriendly - environment and also be able to deal with unfair means of competition in order to decide the K-question for yourself.

Based on real political events, you will experience this tension and all these contradictions in Kanzleramt.

Your path to the chancellorship is long and rocky, and it always leads through the Bundestag. It is important that you

It is important that you get as many members of your own party into the Bundestag as possible. Because in this parlour game they elect the Federal Chancellor at the end.

As in real life, the path to this position is practically never straightforward and is marked by both positive surprises and setbacks. Luck, skill, fighting spirit and a wide variety of political events influence the path of your party's politicians to the Bundestag.

Two playing fields - for 4 or 6 players - determine your path from party headquarters to the Bundestag. The 60 event cards influence your path with surprising and unforeseen events. Sometimes you can even use setbacks to your advantage. You can also enrich the game with your own creativity by adding your own ideas to 12 blank event cards.

You can only be successful if you have the absolute will to win and the unshakeable ability to recognise setbacks as opportunities and turn them to your own advantage.

Assertiveness and luck will only bring one of you to your goal - the chancellorship.

In the struggle for power, every means is justified!

- 1 game board with the front for 4 and the back for 6 players, foldable in 4 parts; made of grey cardboard and fine linen paper, printed in 4 colours
- 60 event cards, 48 standard and 12 "intensive" event cards. For your own creations, 12 additional blank cards are included; made of 300 gr quartet cardboard
