Product Description

The Dervishes of Sunspear take the principle of House Martell's agility to a new level. During their training, they learn to attack quickly, strike hard and retreat just as quickly, either to prepare for another attack or to choose a more favourable target. Enemies besieged by them are often so rattled by the dance of the whirling blades that their reaction is severely impaired. Dervishes can hold their own in close combat for a while, but only perform at their best when they keep moving.

The unit expansion A Song of Ice & Fire - Sunspear Dervishes brings a total of 13 miniatures to the popular world of the epic tabletop game. Included are a Captain of the Dervishes of Sunspear, a Banner Bearer of the Dervishes of Sunspear and eleven Dervishes of Sunspear, as well as a Reinforcement Card, a Unit Card and a Movement Tableau.

The game contains unpainted miniatures.

Caution: A Song of Ice & Fire - Martell starter set is required to play this expansion.

Warning: Not suitable for children under 36 months. Danger of suffocation!
