Product Description

Which of you is more adept at bouncing your pebbles?

Elegant and tactical at the same time, Qawale finds its inspiration in piles of pebbles found along the paths. Both players receive eight pebbles of one colour each. The third colour is neutral. The player whose turn it is places a stone on a pile of his choice and moves it. When moving a pile, you must leave one stone on each square you cross. The first player to line up four pebbles of their own colour on the board, viewed from above, wins this game, which impresses with the magnificent feel of the material.

Caution! Not suitable for children under 3 years due to small parts that may be swallowed, risk of suffocation!
