Product Description

The game principle of Unstable Unicorns NSFW is the same as the popular classic, but the unicorns are clearly ... more salacious and deliciously disgusting. Only the one of you who completes his army first will become the rightful ruler of all things filthy ... at least until the next game.

Unstable Unicorns is played in turns. All players start with five black cards and one baby unicorn card each. Each turn consists of four phases: At the beginning, any card effects are triggered. Then you draw a card from the draw pile. In the subsequent action phase, you either play a unicorn, magic, devaluation or enhancement card from your hand and place it in a stall, or you draw another card from the draw pile, with a hand card limit of seven. The first player to place seven unicorns (six unicorns for six to eight players) in their stable wins. But always be on your guard! Your fellow players can also steal the unicorns from your stable.

Caution: Not suitable for children under 36 months. Not suitable for children under 36 months.
