Product Description

Finder of invisible ways is well known to the Dahan: He crosses the island effortlessly and most spirit speakers have met him. He communicates more directly than other spirits, overlaying his high trills with layers of thought. Sometimes he helps souls of dead dahan on their way before malevolent spirits can devour them. Though omnipresent, he remains enigmatic. Even the Dahan who call him the Wayfinder are not sure if he really creates new paths or finds what is already there. Is the parallel world he moves through even spatial or another form of existence? The thoughts he communicates are so alien that they are difficult to put into words.

Finder of Invisible Paths is an additional spirit for Spirit Island with very high complexity. This spirit moves invaders most of the time and sometimes dahan, presences or animals. This (and plenty of isolating) makes it good at creating invader-free, "safe" zones. Without a way to bring destroyed presences back into play, he can rarely afford to destroy invaders. Therefore, he needs a suitable Strong ability - or teammates to support him in attacks. Since he changes the topology of the island, the complexity increases for all players - especially in larger games!

Caution. Not suitable for children under 36 months.

- Number of players: 1-4
