Product Description

There are rumours of monsters so powerful that they reduce entire cities to rubble. Killing such a dangerous monster would make a sorcerer an immortal legend. However, not every monster hunter is up to such a task.

Take part in the Legendary Hunt and face the most powerful creatures on the continent.

The Legendary Monsters expansion to The Witcher: The Old World brings a new game mode featuring giant legendary monsters. Seven different legendary monsters with unique abilities provide ever new challenges.

New monsters such as the Fearbringer, the Ice Giant or the Golem bring new dangers into the world. Special attack cards provide a greater challenge in battle. As they roam the world, the monsters leave a trail of destruction in their wake. Stop them from destroying the entire continent.

Prepare for an epic finale: To prevail in the battle against the legendary monster, you must train your skills. The first person to take down the monster wins.

You can combine Legendary Monsters with other expansions of The Witcher: The Old World. This expansion modifies the solo mode.

A base game of The Witcher: The Old World is required to play.

Caution. Not suitable for children under 3 years due to small parts which may be swallowed, choking hazard!
