from **19,89 EUR**

Item no.: 358714
shipping weight: 0.40 kg
Manufacturer: COBI

Product Description

Sd.Kfz.10 DEMAG D7 is a light half-track artillery tractor produced between 1937 and 1945 for the needs of the German Army. The D7 was finally developed in 1939. Depending on the version, it could carry 2 crew members and 6 passengers. It was the basic tractor used in motorised artillery. The popularity of the vehicle is evidenced by the production volume of 17,000 units.

The Sd.Kfz.10 artillery tractor was constructed with attention to detail in a 1:35 scale model consisting of 283 elements. It includes moving parts and high quality, durable prints. The set perfectly complements the growing collection of historical 1/35th scale block vehicles and will definitely find a place in your collection alongside Blitz trucks, Horch cars and other amazing vehicles released in the same series and scale by COBI. The set includes a figure of a soldier of the Afrika Korps. There are other accessories on the vehicle, such as a novelty box, a spade and a crowbar.

The assembly of the kit is simple. Intuitive instructions based on clear symbols help you easily go through the whole process of a satisfying construction. Build a story block by block and create your own collection!

- 283 high quality elements
- manufactured in the EU by a company with over 20 years of tradition,
