Mirage IIIC Vexin, model, 444 parts, 7 years and up

from **26,74 EUR**

Item no.: 358823
shipping weight: 0.60 kg
Manufacturer: COBI

Product Description

The Dassault Mirage IIIC is a single-seat combat aircraft manufactured by Dassault Aviation in France. It is a single-engine delta low-wing aircraft with an all-metal structure. Production of the aircraft reached about 870 units in various development versions between 1956-1982. The Fighter was used in the armed forces of many countries around the world. It was manufactured under licence in Belgium, Switzerland and Australia. Israel and South Africa made profound modifications and created their own development versions of this fighter.

Armed Forces is a series that includes perfectly reproduced models of military vehicles currently in use around the world. Here are armoured cars, transporters, tanks, helicopters and aircraft of the current generation. COBI has released the 1:48 scale Mirage IIIC model under the original licence from Dassault Aviation. It was developed entirely from COBI building blocks and is intended for both play and display. The design of the aircraft has been improved over the previously released Mirage 2000. Due to the detailed reproduction of even the smallest details, it will be a great decoration for any collection of military enthusiasts and modern military aviation. Only high quality, durable prints were used on the model. The aircraft has many movable elements such as retractable wheels, ailerons, a hinged pilot cockpit and finally weapons. The set includes a special pilot body that can be placed in the cockpit. The set includes a special block display stand with a sign with the name of the aircraft.

- 444 high quality parts,
- Made in the EU by a company with over 20 years of tradition,
- Meets safety standards for products for children,
