SKODA SCALA 1.0 TSI, model, 70 parts

from **9,93 EUR**

Item no.: 358865
shipping weight: 0.20 kg
Manufacturer: COBI

Product Description

The Škoda Scala is a popular 5-door hatchback in the compact car segment. Produced from 2019, it successfully replaced the previous Rapid model. It is larger than the latter and features a higher standard of performance. The car's name comes from Latin and means stairs or ladder. It is a reference to the development that has taken place in relation to the Skoda Rapid. The model, made from COBI components, faithfully reflects the characteristic shapes of the original Škoda Scala. Thanks to 70 elements, minor modifications and alterations to the vehicle are possible. There are durable prints on the pads that do not wear out even with intensive use. Rotating wheels with tyres are perfect for moving the model during play. The building block model perfectly complements COBI's collection of modern cars, youngtimers and historical vehicles in 1:35 scale. Skoda Scala is a great gift idea for car lovers, collectors, as well as children and teenagers interested in cars and technology. Thanks to the clear and transparent instructions, building block cars are easy to build. This is the perfect set to start your adventure with Polish COBI building blocks!

- 70 high quality elements,
- made in the EU by a company with over 20 years of tradition,
- meet the safety standards for products for children,
- blocks with imprint do not deform and do not fade during play or under the influence of temperature,
