from **47,70 EUR**

Item no.: 358822
shipping weight: 1.50 kg
Manufacturer: COBI

Product Description

The UH-60 Black Hawk is an American medium multi-role infantry transport and support helicopter manufactured by Sikorsky Aircraft Corporation. The helicopter is built in a conventional layout with twin turboshaft engines. The helicopter crew consists of two pilots and a mechanic who is also a gunner. The cargo hold can accommodate up to 11 soldiers in full equipment. Since the 1970s, the helicopter has undergone constant development and new equipment and weapon variants have appeared. Black Hawk is the most famous modern combat helicopter, used in over 20 countries around the world!

From a set of 905 COBI building blocks, you can build an extremely popular American SIKORSKY® UH-60 BLACK HAWK® helicopter, true to the original in 1:32 scale. The helicopter was released under licence from the American company Sikorsky Aircraft Corporation. Among others, Black Hawk helicopters are produced in Mielec (Poland) right next to the COBI brick factory! The set was released in the Armed Forces series, in which COBI presents models currently in use in armies around the world. The 53.5 cm long model is covered with high-quality prints that will not wear out even with intensive use. The helicopter is equipped with rotating propellers, sliding doors and a machine gun just in front of the pilot's cabin. The set includes two figures of American pilots. The whole set is completed by a brick printed with the name of the set and the Sikorsky logo. The set is perfect for lovers of modern military models who value realistic models. The helicopter will be an interesting element of any collection that you cannot pass by indifferently.

- 905 high quality parts,
- Made in the EU by a company with over 20 years of tradition,
- Meets safety standards for products for children,
