Product Description

New dice - even more fun! The world of Qwixx is growing and with the new version QWIXX-LONGO not only offers a longer piece of paper and 8-sided dice, but also two individual lucky numbers for everyone to add to the fun of the game. The simple original rules remain completely intact and, as always, there are no waiting times. New, longer - simply QWIXX!

- Eight-sided dice: The eight-sided dice are excitingly new. The additional numbers 7 and 8 extend the fun and allow even higher number results
- Longer colour rows: The colour rows in QWIXX LONGO have been extended to include the numbers 15 and 16. Now players can not only collect more points, but also close a colour row with just one of the two new numbers
- Lucky numbers: Each player receives two individual lucky numbers. If the sum of the two white dice results in a lucky number on a player's slip of paper, the player may mark the next possible number of the row in which he currently has the fewest crosses instead of the number rolled

QWIXX LONGO expands the series and the fun of playing QWIXX and offers not only fans of the series a new and exciting game experience that lasts longer!
