Product Description

Roulette has thrilled and fascinated players for almost 300 years. The word roulette comes from the French and means "little wheel", from la roue, the wheel. The first forms of the game of roulette appeared in Western Europe during the 17th and 18th centuries.

Historians assume that the famous French mathematician Blaise Pascal invented roulette in 1657, when he was brooding over the unsolvable problem of perpetual motion, the eternally running machine. Today, roulette is played in all casinos around the world according to almost identical rules. The simple rules make roulette a popular family game. Caution! Not suitable for children under 3 years due to small parts that can be swallowed! Danger of suffocation.
