M4A3 Sherman, model, 852 parts, from 7 years old

from **42,91 EUR**

Item no.: 358750
shipping weight: 1.10 kg
Manufacturer: COBI

Product Description

The M4 Sherman is the most important American medium tank from the Second World War. It was produced in 1942-1945 and became the most famous American tank. It was dynamically developed during the war. It was equipped with a 75 mm gun. The ammunition and combustible engine initially made the Shermans an easy target for the heavier German tanks. Only after the design was refined could the roles be reversed. In total, about 49,000 examples of all versions of the Sherman were produced. The tank was used by the armies of the USA, Great Britain, Poland, France and the USSR, among others. It had a reputation as a reliable, easy to manufacture and well-armed tank.

The block-based Sherman was produced in large 1:28 scale, allowing more details to be recreated! The tank has a movable gun, rotating turret, opening hatch and working track system. All graphic details are high quality prints that will not wear out even with intensive play. The advantage is the design, which uniquely reproduces the original forms of its historical role model. There are additional accessories on the tank that represent the vehicle's cargo and can be used by minifigures representing the tank's crew. Of particular note is the perfectly reproduced statue of the tank commander, in which you can see a hero worthy of the best war films. The whole set is completed by a shield with the tank's name.

The tanks are perfect for adult military enthusiasts and anyone who loves history and construction, regardless of age! Build a story, block by block!

Warning: not suitable for children under 36 months!

- 852 high quality elements
- Made in the EU by a company with over 20 years of tradition
- The blocks meet the safety standards for products for children
- Fully compatible with other brands of clamp blocks
- Blocks with imprints do not deform or fade during play or when exposed to heat
