Product Description

Happy Salmon is a chaotic card game that will have you laughing and moving in less than two minutes. It's wild, fast and LOUD. So make room and clear out the chairs. If your pulse goes above 120, you're in the right mood.

Here's how it works: Each card has one of four possible actions that you can only do in pairs. Whether it's Shark-Five, Fish-Fist, Funny Salmon or Fast Trout: you all search for someone with the same card at the same time by shouting out the spell on your card, gesticulating wildly and listening to what the others are shouting. When two have found each other, you perform the action and discard the two cards. The first person to get rid of all the cards wins!

Can you be the fastest trout in the fish tank?

Attention: not suitable for children under 36 months!
