Tool, engraving tool for rivet rows

8,67 EUR

Item no.: 365620
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

The rivet row engraving tool is the ideal tool for all modellers who want to create realistic and authentic surface structures on their models. With the tool, they can easily and precisely create rivet rows on their models that would otherwise be difficult or impossible to achieve.

The set includes four interchangeable engraving discs that allow you to create rivet rows with four different rivet spacings. This covers a wide range of aircraft types and scales. This tool is ideal for modellers and hobbyists who have high demands on the precision and quality of their work and is particularly suitable for complex models or detailing work. With the rivet row engraving tool, you have a tool that allows you to create authentic and realistic surface structures and thus take your models to the next level.
