

Item no.: 365626

Tool, precision cutter

from **8,79 EUR**

Item no.: 365626
shipping weight: 0.20 kg
Manufacturer: Revell

Product Description

The precision cutter is a high-quality side cutter at an excellent price-performance ratio. It is specially designed for precise cuts in fine materials and is perfect for model making, electronics, repairs and other precision work.

The precision cutter has ergonomically shaped handles that allow precise guidance and fatigue-free working. These handles are made of high-quality material and ensure a secure grip, even for the finest work.

The scope of delivery includes a side cutter that is ready for immediate use. Due to its excellent quality and precise performance, the precision cutter is an indispensable tool for every model builder, electronics technician, repair technician and anyone who needs to carry out precise work.

Caution! Not suitable for children under 36 months.
