from **8,61 EUR**

Item no.: 366386  
shipping weight: 0.80 kg  
Manufacturer: Revell

### Product Description

The single-seat "Corsair" was the Navy's last propeller-driven fighter aircraft of US production. Thanks to its unique appearance with the inverted bent wings, it was suitable as a carrier aircraft, but was flown by US Marine Corps pilots from runways in the Pacific and enjoyed a special post-war career in Korea.

Scope of delivery:

Plastic model kit (not assembled) Illustrated, multilingual assembly instructions Decals
