Product Description

Revell Color Mix is the indispensable helper for all model builders and artists who want to optimally prepare their enamel paints for airbrushing. This 100 ml bottle offers you enough quantity to realise numerous projects with perfectly diluted colours. The special formulation of Revell Color Mix ensures an even and controllable colour consistency for a professional and flawless finish.

The advantages of Revell Color Mix 100ml at a glance:

1. Optimum colour consistency: Revell Color Mix thins your enamel paints to the perfect consistency for an even and flawless airbrush result
2. Improved paint flow properties: Using Revell Color Mix gives your paints improved flow properties, making airbrushing easier and ensuring a professional finish
3. Versatile use: Revell Color Mix is not only suitable for airbrushing, but also for thinning enamel paints for brush work to ensure optimum coverage and finish
4. Generous amount: The generous 100 ml bottle provides you with enough thinner for numerous projects, ensuring a long-lasting supply
5. Easy to use: The practical bottle with screw cap allows for easy dosing and clean working to achieve an optimal mixing ratio

Revell Color Mix 100ml is the ideal solution for anyone who values perfectly diluted enamel paints and professional results in their model making or art projects. Discover how Revell Color Mix takes your airbrush technique to a new level and gives you a flawless and impressive finish.
