Tool, Sandblade files, 2-sided (5 pcs.)

from **2,97 EUR**

Item no.: 365618
shipping weight: 0.10 kg
Manufacturer: Revell

Product Description

The sand files with coarse and medium grit are an indispensable tool for all modellers who want to quickly and easily sand and clean up the surface of their components. The files are 2-sided and available in a pack of 5, which allows you to use different grits for different applications.

The coarse side is perfect for removing burrs and imperfections, while the medium grit is perfect for sanding and cleaning up surfaces. By using sand files, modellers can quickly and easily prepare their parts before painting or varnishing them.

All in all, sand files are an important tool for every modeller who has high demands on the quality and precision of his work and wants to improve the surface of his components quickly and easily.

Caution! Not suitable for children under 36 months.
